

**OKO / No.1**  
470 €

# OKO came first and lent the name to the whole collection.

**OKO No. 1** is the first limited edition version of the OKO vase, inspired by 20th-century graphics and illustrations.

The ceramic vase's form is emphasized by the graphic cobalt eye decoration appearing in the grooves. The use of cobalt chloride for coloring signifies the designer's commitment to traditional craftsmanship.

**OKO No. 1** is available upon request, and each piece is hand-painted by the artist.

**OKO** came first and lent the name to the whole collection. It was first presented in 2014 as part of Tokyo Designers Week and has since had numerous re-editions and collection launches, all decorated and hand-painted by the artist.

Its organic spindle-shaped form and trademark spherical depressions together with graphic patterns and colors pay tribute to history and craftsmanship while maintaining a distinct contemporary character. The **OKO** vase features in polish art and history of art textbook as an example of 21st-century design.

The **OKO / Rocket** vase was created in 2022 during the preparations for the „Red Energy” exhibition. Its strong form, based on the OKO vase design, is one of the most impactful forms in the OKO Family.

The **OKO / Rocket** vase is decorated with horizontal pretzels and balls. The full glazing gives the vase a monumental form and serves well as a sculpture with a functional purpose.

The color red reflects fiery character, the need for communication, openness to experimentation, and is associated with relationships.

During the exhibition ,Red Energy,' Malwina Konopacka's objects were juxtaposed in an unconventional manner with expressive paintings by Marian Czapla.

The **NANA** design joined the OKO Family in 2018. It received a Must Have 2020 award at the Lodz Design Festival.

The **NANA** vase consists of 6 stacked pretzels standing on a round base. The top of the vase is adorned with a ceramic ball, which allows the object to function as a standalone sculpture without losing its practical function.

The **TERESA** vase measures 78 cm  
- the same height as the artist's one-year-old  
daughter (Tereska) in January 2018.

**TERESA** is definitely the largest of the  
vases designed by Malwina Konopacka.  
Its high, massive shape serves  
as a standalone sculpture in the interior,  
without losing its practical function  
as a vase.

**OKO Ceramic Family.** Just like in a family - we are united by certain characteristics, recurring elements. We are cut from the same material („from the same clay” - in Polish), similar and yet different, with our individual character.

Meet the **OKO Ceramic Family**, which is still growing. Designing for us is fun, juggling elements to create a dictionary of shapes.

## Malwina Konopacka

**Illustrator and designer.** Graduated Industrial Design at the Academy of Fine Arts in Warsaw and illustration at the Universität der Künste in Berlin.

In 2014, she transferred her illustrations onto ceramic objects, creating the first OKO project. Since then, the family of ceramic, hand-painted items such as vases, platters, and plates has gradually expanded. Konopacka's ceramic pieces can be found in many private collections as well as in the design collection of the Polish National Museum in Crakow.
